1. We have reviewed the accompanying statements of unaudited financial results of Kerala Infrastructure Investment Fund Board (hereinafter referred to as 'KIIFB') for the quarter and year to date ended December 31, 2024 and notes to accounts (hereinafter referred to as 'interim financial information') being submitted by KIIFB pursuant to the requirement of Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, ('the Regulations') as amended..
2. This interim financial information, which is the responsibility of the KIIFB's Management and approved by its Board, has been prepared in accordance with the recognition and measurement principles laid down in Accounting Standard 25 'Interim Financial Reporting' ('AS 25') and other accounting principles generally accepted in India and in compliance with the Regulations.

Our responsibility is to issue a report on this interim financial information based on our review.

3. We conducted our review of the interim financial information in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial information are free from material misstatement. A review is limited primarily to inquiries with management and analytical procedures applied to financial data and thus provides less assurance than an audit. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit.

We have not performed an audit and accordingly, we do not express an audit opinion.

The selection of these parties were made on a nomination basis and subsequently ratified by Board in GB dated 04.03.2024 and the rates are considered competitive considering the nature and exigency of the work involved and also taking into account the prior experience with these parties. Out of the above, an amount of Rs 614.10 lakhs is incurred towards media and promotional campaign activities - KSFE Pravasi Chitty and KNRKWB Customers & Other Pravasi malayalis serving as one of the major funding source of KIIFB.

Regarding the IND001-01 project, interest income amounting to Rs 15,683.39 lakhs has been recognised, even though the repayment agreement was executed prior to achieving 40 % of the disbursement milestone. The rate of interest chargeable is fixed only on reaching 40% disbursement as per the terms of tripartite agreement for the project. However, interest on such borrowing has been recognised based on rates agreed upon at the time of sanction of the loan/ ACDB (Average Cost Domestic Borrowing) rate as decided by the management.

- c. Note No: 15 to the interim financial information' stating that Loan agreements are pending to be executed as on December 31,2024 with KSFDC for two project loans having loan outstanding aggregating to Rs 1584.18 lakhs (Previous year to date Rs 992.01 lakhs) although more than 40 % stage of disbursement as per the terms of the tripartite agreement between KIIFB, the SPV (Special Purpose Vehicle) and the concerned Government department had exceeded. These expenses are supported by invoices of first level intermediary agencies. KSIE Limited has raised invoice on KIIFB ranging from 3% to 10% over cost incurred depending upon the nature of service provided through the intermediary agency to whom the services have been sub-contracted.
- e. Note No: 18 to the interim financial information' stating that the aggregate operating cost (Server hosting and License renewal charges) paid to KSIE Ltd till date from the date of commencement amounts to Rs 6029.35 Lakhs against the capital cost of acquisition/ development of software of Rs 3,037.94 Lakhs (Gross carrying value). In terms of the MoA between KIIFB and KSFE dt.01.06.2019, a separate agreement is to be entered into between the parties for recovery of the total cost (operating and capital) of the software from KSFE which is pending to be executed.

Our conclusion is not modified in respect of the above matters.

Other Matters

6. The comparative financial information appearing in the statement, of the corresponding quarter and year to date ended 31st December 2023 was reviewed by the previous auditor whose report dated 07th February 2024, expressed a qualified conclusion. Further for the year to date financial results for the period 01st April 2023 to 31st March 2024 are audited by the previous statutory auditors whose report dated 25th May 2024 expressed a Qualified Opinion on the standalone financial statements on the authenticity of certain expenses.

As per the said norms provisions for standard assets (for all revenue generating projects) at 0.4% on the outstanding loan balance and accrued interest amounting to Rs.3077.13 lakhs (Previous year to date Rs. 2550.05 lakhs) has been provided in the books of accounts as on December 31, 2024. As per the said norms, an asset is recognised as Non-performing when there is arrears of principal or interest overdue for more than twelve months only. Once an asset is recognised as non-performing (Substandard or lower), entire unrealised interest is reversed, and income is accounted for on cash basis only.

As per the provisions of IRACP Norms Projects identified and categorised as Category 1 or 2 earlier but later recategorized as Category 3 projects, entire interest accrued in the past period shall be reversed. Moreover, since the borrowers are government owned or controlled agencies, the loans are considered by the management as good and recoverable based on the confirmations from the borrowers including for land acquisition projects aggregating to Rs 5,17,604.81 lakhs (Previous year to date Rs. 413,331.87 Lakhs) (Total Loan outstanding as on December 31,2024).

However, interest on such borrowing has been recognised based on rates agreed upon at the time of sanction of the loan/ ACDB rate as decided by the management.
- 13 Interest income has been recognised on loans given to SPV's revenue generating projects in cases where there has been certain delays on implementation of the projects financed by such loans. According to the management, payment of interest is not contingent on such projects earning revenue. The management have further asserted that certain inherent delays which have occurred during implementation stage of infrastructure projects does not have any adverse effect on the recoverability of loans granted considering the operational model of KIIFB. Hence, these loans are considered good and expected to be recovered from SPVs which are all government owned or controlled agencies.

With new strategy and structure, KIIFB aims to dynamically mobilise funds for the infrastructure development of Kerala including major land acquisition needs of the State. KIIFB has recourse to the advanced financial instruments approved by SEBI / RBI and is expected to promote substantial development of sustainable infrastructure in the State.

KIIFB is a body corporate established under an Act of Government of Kerala (KIIFB ACT 1999) exclusively for undertaking sub-sovereign functions of financing the key infrastructure projects in the State of Kerala and all activities are done in pursuance of the above objective only.

- b. KIIFB follows Mercantile System of Accounting and recognizes significant items of income and expenditure on accrual basis, except to the extent otherwise stated in the notes.

B. USE OF ESTIMATES

The preparation of financial statements in conformity with Indian GAAP requires judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period.

C. PROPERTY, PLANT AND EQUIPMENT

Depreciation: Depreciation has been provided on Written down Value Method at the rates prescribed in appendix to the Income Tax Rules.

(b) Intangible Asset

Intangible Assets are recorded at the cost of acquisition of such assets and are carried at cost less accumulated amortisation and impairment, if any.

Amortisation: Amortisation has been provided for on Written down Value Method on assets (other than masala bond expenses and issue expense for KSFE) at the rates prescribed in appendix to the Income Tax Rules. In respect of expenditure incurred towards issuance of Masala Bond and expenditure towards issue for KSFE Bond, the same is amortised over a period 5 years being the period during which the benefits are expected to materialise.

D. PRIOR PERIOD ADJUSTMENTS

As per AS 5 "Net profit or Loss for the period, Prior Period Items and Changes in Accounting Policies",

- (i) Prior period adjustments represent entries for correction of errors or omissions in the preparation of financial statements of one or more prior periods and as such are shown separately in the Notes annexed to and forming part of Accounts.
- (ii) Extra-ordinary items are those material adjustments that arise from events or transactions that are clearly distinct from the ordinary activity of KIIFB and are not expected to occur frequently or regularly and therefore are shown separately in the Notes annexed to and forming part of Accounts.

E. REVENUE RECOGNITION

In line with the prescriptions in AS 9 on "Revenue Recognition", revenue is recognised only when it can be reliably measured and it is reasonable to expect ultimate collection as per the assessment of the management.

Interest income on fixed deposits is recognised time proportionately based on periods for which amounts are outstanding and the interest rate applicable.

Interest generated from the investments made out of the corpus funds received are credited to the corpus fund as such interest is to be mandatorily used for the objectives of the Act and hence forms a part of statutory contribution accounted under Corpus Fund.

Interest income on loans granted for revenue generating projects is recognised on accrual basis as per the terms of the loan agreement, wherever such agreements have been entered into except to the extent otherwise disclosed in the notes to accounts. In case of loans granted for which the loan agreement is pending to be executed, interest is recognised on accrual basis at rates and methodology as per comparable loan agreements entered into with other parties as per the estimate of the management or at the interest rates agreed upon at the time of sanction of loan in certain cases where ever applicable. Late payment charges, prepayment charges are recognised on a point in time basis, and are recorded when realized since the probability of collecting such monies is established when the borrower pays.

F. CORPUS FUND- Revenue Recognition and Accounting of Utilisation

The corpus fund-revolving represents the funds received every year from Government of Kerala as part of statutory contribution provided for in the State budget under financial support for infrastructure development as stated in Section 3(1A) r.w.s Section 7 of KIIFB Act, 2016 towards the objectives based on resolution of the general body and also any amounts received additionally from Government of Kerala to meet additional fund requirements as per relative government order. The amounts utilised towards direct cost of projects are recouped from the revolving/ corpus Fund for the year and amount so utilised are shown as contra item in the P&L a/c to reflect the activities undertaken to meet the objectives as per the Act. The corpus fund-revolving also includes funds received under LAC/ADS scheme and PTA/CSR Fund as per Govt Order.

G. INVESTMENTS

As per AS 13 "Accounting for Investments", Current Investments are carried at the lower of cost or quoted / fair value, computed category-wise. Long-term investments are stated at cost. Provision for diminution in the value of long-term investments is made only if such decline is other than temporary. Investments that are readily realisable and intended to be held for not more than 12 months from the date of acquisition are classified as current investment. All other investments are classified as non-current investments.

H. BORROWING COST

As per AS 16 "Borrowing Costs", Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that takes necessarily substantial period of time to get ready for intended use. All other borrowing costs are charged to the Statement of Profit and Loss.

I. INCOME RECOGNITION AND ASSET CLASSIFICATION NORMS

Amounts shown under long term loans represents finance assistance to revenue generating projects.

The Income Recognition and Asset Classification (IRAC) norms issued by RBI and applicable to Banks/ NHFCs which fact has been disclosed in significant accounting policies of the previous year. However, since KIIFB is engaged in financing infrastructure projects with long gestation period and the revenue generation is contingent on factors beyond the control of the entity, strict adoption of the IRAC norms is considered to be impracticable and not feasible. Hence the above decision taken by the General Body has been reversed at the meeting held on 07.07.2022 to discontinue the implementation of the IRAC Norms with effect from 01.04.2021. The financial impact on the accounts on account of the above is nil. Steps are being taken for defining and implementing suitable norms for classification of loans, provisioning and recognition of income appropriate and relevant to the unique nature of activities being undertaken, for financing of infrastructure projects with long gestation period, with focused social commitment to meet the objectives in the KIIFB Act 1999(as amended by Act of 2016).

J. ACCOUNTING FOR TAXES ON INCOME

Income Tax is accounted in accordance with Accounting Standard on Accounting for Taxes on Income (AS-22), which include Current Taxes and Deferred Taxes. Provision for Current Tax is made in accordance with the provisions of The Income Tax Act, 1961. Deferred Tax assets/ liabilities representing timing differences between accounting income and taxable income are recognized to the extent considered capable of being reversed in subsequent years by applying tax rate substantively enacted as at the end of the year. Deferred tax assets are recognised only to the extent there is reasonable certainty that sufficient future taxable income will be available, except that Deferred Tax Assets arising due to unabsorbed depreciation and losses are recognised if there is a virtual certainty that sufficient future taxable income will be available to realise the same.

K. CASH FLOW STATEMENT

These are reviewed at each Balance Sheet date and adjusted to reflect the correct management estimates. Contingent Liabilities are not recognised but are disclosed in notes. In case of loans granted for which the loan agreement is pending to be executed, interest is recognised on accrual basis at interest rates as per comparable loan agreements entered into with other parties or at the interest rates agreed upon at the time of sanction of loan, as the case may be, as per the estimate of the management on simple interest basis till previous year. During the year, KIFB has decided to charge interest income at the rate of Average Cost of Domestic Borrowing (ACDB) of KIFB reset every six months in a calendar year with monthly compounding for entire revenue generating projects (other than loan given to KSFDCL Rs. 9,94,29,168/-) which was earlier accounted at a fixed rate under simple interest method. Terms of loan agreement (loan amount aggregating to Rs.19,30,28,21,727) executed in prior years with fixed interest rate are pending to be amended by changing interest rate to floating method at ACDB rate as above due to procedural formalities to be completed.

17.2 On facts of the case, many of the projects financed with long gestation period are yet to be completed as at the year end. As per the terms of the loan sanctioned the repayment of principal and interest commences on completion of moratorium period and it is not contingent on the project earning any revenue. There have been certain significant time overrun on some of the projects due to the impact of covid 19 but interest is payable on completion of moratorium period regardless of project completion or whether project is earning revenue or not.

17.3 As at the end of the year, loan agreements are pending to be executed with four parties for loan outstanding aggregating to Rs.22,56,54,47,448/- although more than 40% stage of disbursement as per the terms of the tripartite agreement between KIFB, the SPV and the concerned Govt department has been completed.

17.4 The interest income recognised includes an amount of Rs.1,71,99,06,910/- for which original loan agreement is not executed and the revenue recognition is based on comparable loan agreements with other borrowers or at the interest rates agreed upon at the time of sanction of loan. Due to the change in the method of charging of interest income for projects where loan agreement is entered into, such similar changes in the revenue recognition of projects for which no agreement is entered constitutes a revision in the method of making estimate by the management. As a result, the income recognised during the year is higher by Rs.19,38,56,268/- compared to previous year where interest income was recognised at a fixed rate with simple interest.

17.5 The Balance in the loan account of KSIDCL Ltd as at 31/03/22 amounting to Rs.3,93,84,83,787/- (including interest of Rs.92,67,79,726/- taken credit for upto 31.03.2021) for the Project Bio-360 Life science Park-Phase II land acquisition Trivandrum is subject to confirmation. At the Board meeting held on 07.07.2022, decision was taken to work out a resolution plan for facilitating recovery of the loan and interest charged by restructuring the project implementation suitably. Due to complexities involved and consequential delay anticipated in the implementation of the resolution plan, interest income for the year amounting to Rs.65,24,79,378/- has not been taken credit for as matter of prudence.

24.1 During the year, KIIFB had incurred an expenditure of Rs.9,86,16,057/- for maintenance, hosting and value adding charges of KSFE Pravasi Chitty software. In accordance with the Memorandum of Agreement (MoA) entered into between KIIFB and KSFE, the parties shall enter into a separate agreement covering the terms of repayment of the expenses incurred by KIIFB towards development of the Pravasi Chitty software and incidental charges. According to the management, though the software is being used by KSFE, the ownership is vested with KIIFB and entire economic benefits of the scheme are shared by KIIFB also, as envisaged in MoA. Due to the on going development activity, the separate agreement for recovery is pending to be executed. At this stage, the cost for development of software is treated as intangible asset based on consideration and approval of proposal by KIIFB and other maintenance, hosting and value adding charges are charged to P&L. The effective control of the above software vests with KIIFB. The management does not expect any impairment loss in the value of software considering the pendency of execution of agreement with KSFE for recovery of cost. Management intends to take up the matter regarding recovery of capital cost and operating/maintenance cost of software incurred from inception with KSFE at the time of finalisation and entering into agreement as noted above.

24.2 Other expenses includes an amount of Rs.19,41,52,291/- being payment towards KSIE Ltd (an intermediary agency engaged by KIIFB for procuring multiple supply of goods and services from third parties) which comprises of payment towards KSFE software maintenance charges, technical support charges, promotional expenses etc. Further an amount of Rs. 4,37,01,734/- incurred towards technical support charges and paid to KSIE Ltd has been charged to direct project cost. Above expenses are incurred as per the terms of work order issued by KIIFB from time to time based on prices quoted by KSIE Ltd on competitive basis for such goods and services. The payments for services/supplies from the third parties through KSIE have been settled on the basis of invoices submitted by KSIE relating to the above services arranged by KSIE Ltd from third party service providers.

Note - 25

KIIFB has put in place a system/process of computation of Asset Liability Management, the beta version of which has been released and is in the process of being further reviewed, tested and stabilised to be sound and fully effective. During the year, a detailed external review of the ALM system was conducted by independent IT consultants to assess the functionality and management of financial risk of KIIFB and to conduct a comprehensive scenario-based testing of the ALM System to ensure its robustness. The observations of the reviewers was duly considered by the management of KIIFB at the meeting held on 15th February 2022 and the status of ALM was taken note of by the General Body.

Note - 26

Commitments - KIIFB sponsored the Kerala Infrastructure Fund (KIF) as AIF (Alternate Investment Fund) registered with SEBI in April 2019. As per SEBI regulations, the sponsor of the fund must commit a minimum of 2.5% or Rs. 5 crores of the fund size and maintain the said minimum amount as continuing interest of the sponsor towards sponsor's commitment, as required under Regulation 10(d) of the AIF regulations, during the term of the Fund. As per the draft PPM submitted to SEBI, the Fund size of KIF is indicated as Rs 3000 Cr (Rs. 1500 crore with green shoe option of Rs. 1500 crore).

The General Body has decided the capital commitment as 10% of the fund size subject to a maximum of Rs 300 crores.

Note - 27

27.1 Reconciliation of Form 26 AS (as per Income Tax Act, 1961) and Book of accounts - Reconciliation of Income for the year F.Y. 21-22 and TDS credit as per Form 26AS with books of accounts is pending to be conducted since Form 26AS in the Income tax web portal is yet to be updated with the entries for the quarter ended 31.3.2022. During the year 2020-21, interest income relating to that year amounting to Rs 3,22,43,045 was detected on such reconciliation and this has been credited to prior period income as detailed in Note 23 to the accounts.

27.2 The TDS Credit in books of account amounting to Rs.3,75,77,143 relating to interest income from a bank for the FY 2019-20 is yet to be credited in Form 26AS and necessary steps to obtain credit will be taken in succeeding year by carrying out a detailed reconciliation of entries in books of accounts with the entries in 26AS. Due to non credit of the amount in 26AS, the same could not be claimed in the return of income filed for AY 2020-21 relevant to FY 19-20.

Note - 28**Contingent Liability**

28.1 During the previous year Income tax demand of Rs 1,12,57,446 was raised for AY 2018-19 under limited scrutiny assessment against which appeal has been filed with higher authorities and is pending disposal. The demand amount of Rs 32,24,636 is on account of erroneous computation in the assessment order for which rectification has been filed and has not been paid or provided for in positive anticipation of a favourable order. The balance demand of Rs 80,32,810 has been paid and written off to Profit & Loss account in the previous year though the matter has been contested on appeals before higher authorities as stated above on a due consideration of the grounds of appeal.

Income Tax Department has adjusted the said demand amount (Rs.1,12,57,446/-) against the Refund due for AY 2019-20 which has resulted in double payment to the extent of Rs 80,32,810 already remitted as stated as above. KIIFB is in the process of taking steps for recovery of said refund amount by filing a refund reissue application with the department. The entire amount has been carried forward under Refund due from the department in Note 11.

28.2 Income tax demand of Rs 1,90,30,439/- (including interest for delayed payment) has been raised by the DCIT -TDS u/s.201 of the Act on KIIFB by treating it as an assessee in default for non-deduction/delay in the remittance of TDS on works bills raised by contractors on SPVs/Advance payments to SPVs on the above account. The management is of the firm view that there is no liability for tax deduction in the hands of board as the privity of contract under Section 194C is between the awardee of the work (SPV) and contractor and hence TDS provisions under Chapter XVIIIB are not applicable to KIIFB on such payments. The person responsible for such payment including TDS thereon is the SPV u/s 204 of the Income Tax Act is only the SPV who has awarded the work to the contractor and in whose name the work bill has been raised by contractor. KIIFB has obtained legal opinion from Senior advocate of repute on the above matter. KIIFB has also obtained stay order from Hon'ble High Court of Kerala on a writ petition filed for an interim period of six months and steps are under way to further extend the stay. The balance amount of demand has not been provided for in the accounts in positive anticipation of a favourable order on disposal of the writ petition on merits.

28.3 Invoices raised by the Vendor pending approval by the management : M/s RITES, the consultant engaged during the year for independent quality review, design review, consultancy and providing assistance in empanelment of supervision consultants has raised a total claim of Rs.10,30,27,859/- which is pending to be approved/accepted by KIIFB as on date and hence represent claims not acknowledged as debt by KIIFB and hence not provided for. The amount is reckoned as contingent liability at this stage and would be accounted for as and when approved /accepted by KIIFB.

Segment Reporting

KIIFB is operating only in one segment in providing funds for investment for critical and large infrastructure projects in the State of Kerala and hence there are no other separate reportable business and geographical segment.

Note - 31

Impact of Covid - 19 on the Accounts - Serious disruptions to trade, business and industry have been caused by the adverse impact of Covid-19 pandemic from March 2020 onward and this is still continuing. There are several projects which are now time over run as at the year end. Though this could result in consequential delays in the financing and implementation of major infrastructure projects being financed by KIIFB, this does not have any material impact in the financial position i.e., on the assets and liabilities position as at 31.03.2022, as per assessment of the management.

Note - 32

Internal Audit System / standard operating procedures - During the year 2021-22, an internal audit wing and an Internal audit management committee(IAMC) as approved by the general body was constituted. During the year, KIIFB had incurred an expenditure of Rs.1,289.24 Lakhs for operating, hosting and value adding charges of KSFE Pravasi chitty software which includes mostly payments made to outsourced agency which are supported by invoices of intermediaries and invoices of end service providers have been furnished to KIIFB on sample basis. The aggregate maintenance expenditure for a period of 3 years from 2020-21 to 2022-23 amounts to Rs.3,103.59 Lakhs against the original cost of Rs.3,037.94 Lakhs(Gross carrying value). In accordance with the Memorandum of Agreement (MoA) entered into between KIIFB and KSFE, the parties shall enter into a separate agreement covering the terms of repayment of the expenses incurred by KIIFB towards development of the Pravasi Chitty software and incidental charges. According to the management, though the software is being used by KSFE, the ownership is vested with KIIFB and entire economic benefits of the scheme are shared by KIIFB also, as envisaged in MoA. Due to the on going development activity, the separate agreement for recovery is pending to be executed. At this stage, the cost for development of software is treated as intangible asset based on consideration and approval of proposal by KIIFB and other operating, hosting and value adding charges are charged to P&L. The effective control of the above software vests with KIIFB. The management does not expect any impairment loss in the value of software considering the pendency of execution of agreement with KSFE for recovery of cost. Management intends to take up the matter regarding recovery of capital cost and operating cost of software incurred from inception with KSFE at the time of finalisation and entering into agreement as noted above.

Note - 25

KIIFB has put in place a system/process of computation of Asset Liability Management. A detailed external review of the ALM system was conducted by independent IT consultants to assess the functionality and management of financial risk of KIIFB and to conduct a comprehensive scenario-based testing of the ALM System to ensure its robustness on 15.02.2022. The observations of the reviewers was duly considered by the management of KIIFB at the meeting held on 15th February 2022 and the status of ALM was taken note of by the General Body. The ALM model is placed for overseeing and monitoring at the periodical meetings of the Fund Trustee and Advisory Committee (FTAC) of KIIFB which comprises of eminent financial experts of the country having rich and wide experience in the field of financial management. The committee reviews the sound functioning of the ALM Model and it has found to be properly in place to safeguard the best interest of KIIFB.

Note - 26

Commitments - KIIFB sponsored the Kerala Infrastructure Fund (KIF) as AIF (Alternate Investment Fund) registered with SEBI in April 2019. As per SEBI regulations, the sponsor of the fund must commit a minimum of 2.5% or Rs. 5 crores of the fund size and maintain the said minimum amount as continuing interest of the sponsor towards sponsor's commitment, as required under Regulation 10(d) of the AIF regulations, during the term of the Fund. As per the draft PPM submitted to SEBI, the Fund size of KIF is indicated as Rs 3000 Cr (Rs. 1500 crore with green shoe option of Rs. 1500 crore).

The General Body has decided the capital commitment as 10% of the fund size subject to a maximum of Rs 300 crores.

Note - 27

27.1 Reconciliation of Form 26 AS (as per Income Tax Act, 1961) and Book of accounts - Interest income as per Form 26 AS is higher by Rs.277.32 Lakhs with respect to a particular bank which is prima facie noted to be duplication of entry in Form 26 AS which is subject to reconciliation. TDS portion of the same was also not taken credit for in books of accounts due to above mismatch.

Note - 28

Contingent Liability

28.1 During the previous year Income tax demand of Rs 112.57 Lakhs was raised for AY 2018-19 under limited scrutiny assessment disallowing the carried forward business loss of Rs.203.46 Lakhs for the A.Y.2014-15 against which appeal has been filed with higher authorities and is pending disposal. The demand amount of Rs 32.25 Lakhs is on account of erroneous computation in the assessment order for which rectification has been filed and has not been paid or provided for in positive anticipation of a favourable order. The balance demand of Rs 80.33 Lakhs has been paid and written off to Profit & Loss account in the previous year though the matter has been contested on appeals before higher authorities as stated above on a due consideration of the grounds of appeal.

Income Tax Department has adjusted the said demand amount (Rs.112.57 Lakhs) against the Refund due for AY 2019-20 which has resulted in double payment to the extent of Rs 80.33 Lakhs already remitted as stated as above. KIIFB is in the process of taking steps for recovery of said refund amount by filing a refund reissue application with the department. The entire amount has been carried forward under Refund due from the department in Note 11.

28.2 Income tax demand of Rs.190.30 Lakhs (including interest for delayed payment) has been raised by the DCIT -TDS u/s.201 of the Act on KIIFB by treating it as an assessee in default for non-deduction /delay in the remittance of TDS on works bills raised by contractors on SPVs/Advance payments to SPVs on the above account. The management is of the firm view that there is no liability for tax deduction in the hands of board as the privity of contract under Section 194C is between the awardee of the work (SPV) and contractor and hence TDS provisions under Chapter XVIIB are not applicable to KIIFB on such payments. The person responsible for such payment including TDS thereon is the SPV u/s 204 of the Income Tax Act is only the SPV who has awarded the work to the contractor and in whose name the work bill has been raised by contractors. KIIFB has obtained legal opinion from Senior advocate of repute on the above matter, KIIFB has also obtained stay order from Hon'ble High Court of Kerala on a writ petition filed for an interim period of six months and steps are under way to further extend the stay .The balance amount of demand has not been provided for in the accounts in positive anticipation of a favourable order on disposal of the writ petition on merits.

28.3 Demands raised for the AY 2020-21 vide order u/s.143(3) dt.27.9.22 and AY 2021-22 vide order u/s.143(3) dt.20.12.22 on completion of scrutiny assessment aggregating to Rs.1,292.01 Lakhs (Rs.79.59 Lakhs for AY 20-21 (considering the rectification order u/s.154 of the Act dt 15.03.23} and Rs.1,212.42 Lakhs 21-22) has been contested on appeals filed with appellate authorities. Since the demands have arisen on account of wrong interpretation/invocation of the provisions of Section 69C of the Income Tax Act, 1961 the amount is not considered payable by the management and not provided for quite hopeful of favourable outcome of the appeal filed.

28.4 Invoices raised by the Vendor pending approval by the management : M/s RITES, the consultant engaged during the year for independent quality review, design review, consultancy and providing assistance in empanelment of supervision consultants has raised a total claim of Rs.1,060.69 Lakhs which is pending to be approved/accepted by KIIFB as on date and hence represent claims not acknowledged as debt by KIIFB and hence not provided for. The amount is reckoned as contingent liability at this stage and would be accounted for as and when approved /accepted by KIIFB. In addition to the above, an amount of Rs 211.17 Lakhs for which claims were not accepted by KIIFB in respect of which credit note is not raised by the party. Out of the above an amount of Rs.135.30 Lakhs is more than one year for which credit note is pending to be raised by the party.

Note 7.1 The management estimates that the future economic benefit from the expenditure towards issue of Mazda Bond and issue of KSFE Bond will accrue to the Board over the period of the Bond being 5 years. Accordingly, such expenditure are treated as Intangible Asset and amortised over 5 years.

7.2 The property, plant and equipment and the intangible assets are purchased using the corpus fund received. However, the amount is not deducted from the gross value of assets or no separate deferred income is recognised for an amount equivalent to the cost of asset in accordance with AS-12 Accounting for Government Grants, since the break up details of assets acquired out of corpus fund/loans have not been maintained.

7.3 The system of maintenance of a formal Fixed Asset register showing full particulars of assets in various locations and physical verification of fixed assets is in the process of implementation. Physical verification of fixed assets and reconciliation of values with asset register is pending to be done and adjustments if any required on such verification would be made in the succeeding year on completion of this process. Based on the management assessment of the internal controls in place over physical possession and available records regarding details of fixed assets, no material discrepancies are expected to arise on physical verification of fixed assets.

7.4 The Gross carrying value and net carrying value of intangible asset towards software for KSFE pravasi Chaiti and issue expenses amounts to Rs. 3,017.94 Lakhs and Rs. 803.34 Lakhs respectively. Revenue expenses incurred towards software maintenance charges during the reporting period amounts to Rs. 1,289.24 Lakhs (cumulatively over the period amounts to Rs. 3,103.59 Lakhs). The actual borrowing infused is Rs. 91,113 Lakhs only and is perpetually growing. The management estimates no impairment in the value of the asset considering the benefits out of the borrowing by issue of bonds to KSFE at reasonable rate of interest and further towards recovery of cost as per terms of MoA between KSFE and KSFE. Accordingly the value in use as per management is sufficient to cover the net carrying value of asset. The higher expenditure on maintenance is explained by the management to be on account of substantially higher utilisation capacity of the software, as compared to its actual use/exploitation.

The amount disbursed to the project till the close of the year is Rs. 30,117.04 Lakhs and accrued interest Rs.9,267.80 Lakhs upto 31.03.2021.No interest has been recognised on the project subsequent to 31.03.2021 pending implementation of resolution plan. Further in the 46th general body of KIIFB revised IRACP norms was placed and the above loan was classified as category III project.(Projects with low commercial viability). Accordingly no interest has been recognised on the project. During the year, an amount of Rs.8402.64 lakhs being the unutilised portion of loan has been refunded by KSIDC based on the proceedings of Special subsidiary LA(General),Trivandrum dated 05.02.2024. Accordingly the said remittance has been adjusted against the principal amount of loan and corresponding provision for loss made in prior year has been written back in the books of accounts under other income.

On execution of repayment agreement, such classification of project was upgraded to category II treating it as adjusting event as per AS-4 and differential excess interest amounting to Rs.263.26 lakhs has been reversed to interest income of the year.

Additional provision amounting to Rs.9475.92 lakhs has been made in books of accounts towards outstanding loan amount and accrued interest till 31.03.2023 for LSG 007-01 project being classified to category III during the year. No interest income has been recognised during the current year for said project.

Moreover, since the borrowers are government owned or controlled agencies, the loans are considered by the management as good and recoverable based on confirmations from the borrowers including for land acquisition projects aggregating to Rs. 2,87,972.40 Lakhs.(cost incurred till 31.03.2024).

Note

7.1 The property, plant and equipment and the intangible assets are purchased using the corpus fund received. However, the amount is not deducted from the gross value of assets or no separate deferred income is recognised for an amount equivalent to the cost of asset in accordance with AS-12 Accounting for Government Grants, since the break up details of assets acquired out of corpus fund/loans have not been maintained.

7.2 The system of maintenance of a formal Fixed Asset register showing full particulars of assets in various locations and physical verification of fixed assets is in the process of implementation. Physical verification of fixed assets and reconciliation of values with asset register is pending to be done and adjustments if any required on such verification would be made in the succeeding year on completion of this process. Based on the management assessment of the internal controls in place over physical possession and available records regarding details of fixed assets, no material discrepancies are expected to arise on physical verification of fixed assets.

7.3 The Gross carrying value and net carrying value of intangible asset towards software for KSFE pravasi Chitty and issue expenses amounts to Rs. 3037.94 lakhs and Rs. 451.30 lakhs respectively. Revenue expenses incurred towards software maintenance charges during the year amounts to Rs. 936.66 lakhs (cumulatively over the period amounts to Rs. 3964.81 lakhs). The actual borrowing infused is Rs. 1,16,817 lakhs only and is perpetually growing. The management estimates no impairment in the value of the asset considering the benefits out of the borrowing by issue of bonds to KSFE at reasonable rate of interest and further towards recovery of cost as per terms of MoA between KIFB and KSFE. Accordingly the value in use as per management is sufficient to cover the net carrying value of asset. The higher expenditure on maintenance is explained by the management on account of substantially higher utilisation capacity of the software, as compared to its actual use/exploitation.

As per the said norms provisions for standard assets (for all revenue generating projects) at 0.4% on the outstanding loan balance and accrued interest amounting to Rs.2583.42 lakhs has been provided in the books of accounts as at 30.06.2024. As per the said norms, an asset is recognised as Nonperforming when there is arrears of principal or interest overdue for more than twelve months only. Once an asset is recognised as nonperforming (Substandard or lower), entire unrealised interest is reversed, and income is accounted for on cash basis only.
- 10 As per revised IRACP norms, KIIFB has classified projects into four categories based on the viability of projects into High, Medium, Low and no commercial viability projects. As per the provisions of IRACP Norms Projects identified and categorised as Category 1 or 2 earlier but later recategorized as Category 3 projects, entire interest accrued in the past period shall be reversed. Hence for such projects IRACP Norms are not applicable from the effective date of classification till the such repayment agreement are executed or project identified as loan in books of accounts whichever is earlier. Provisioning of non performing assets is done as per norms as under:
 - a) The assets are classified as follows.
 - I. Standard Assets – up to 12 months overdue.
 - II. Substandard Assets -Beyond 12 months but less than 24 months overdue.
 - III. Doubtful Assets -Beyond 24 months overdue.
 - IV. Loss Assets -fully written off subject to security value realisation
 - V. b) Provisioning Norms

- 11 Prudential norms on Income recognition and asset classification and provisioning for long term infrastructure projects was adopted by KIIFB w.e.f 01-04-2023, vide circular resolution stated above and the same has been revised in the 46th General Body meeting of KIIFB held on 02-09-2023. KIIFB has classified projects into four categories based on the viability of projects. The categorisation of loans is as follows:

Category	Type of Category	No. of Projects	Loans(Rs in lakhs)	Interest Accrued(Rs in Lakhs)	Total (Rs in Lakhs)
I.	Projects which have high commercial viability	7	6,22,118.32	14,867.49	6,36,985.81
II.	Projects which have medium commercial viability	6	8,775.77	95.89	8,871.66
III	Project which have low commercial viability	3	51,863.97	0	51,863.97
IV.	Projects which have no commercial viability	0	0	0	0
	Total	16	6,82,758.06	14,963.38	6,97,721.44

- 11.1 KIIFB had revised the repayment agreement for the project ITD 001-02 on 13-04-2024. As per the terms of agreement interest rate was reduced to a fixed rate of 5% from the existing ACDB rate of 9.52%. However the RPA has yet to be approved by the Board members, the asset is under Category 3 Project.
- 11.2 On the facts of the case, in respect of many of the revenue generating projects financed, there have been certain inherent delays during implementation which according to the management does not have adverse effect on the recovery of loans granted considering the operational model of KIIFB. Moreover, since the borrowers are government owned or controlled agencies, the loans are considered by the management as good and recoverable based on the confirmations from the borrowers including for land acquisition projects aggregating to Rs 2,79,790.38 lakhs (Principal outstanding as on 30.06.2024).
- 11.3 Interest income for Category 1 projects are recognised at Average Cost of Domestic Borrowing (ACDB) of KIIFB reset every six months in a calendar year with monthly compounding (in some cases rate agreed at the time of sanction), Category 2 projects at discounted rate of interest as compared to category 1 and with respect to other two categories interest income is not recognised in the books of accounts.
- 12 Interest income recognised during the quarter includes an amount of Rs 5,893.69 lakhs on which 40% stage of disbursement has not been reached. The rate of interest chargeable is fixed only on reaching of 40% stage is reached as per the terms of tripartite agreement for the project. However, interest on such borrowing has been recognised based on rates agreed upon at the time of sanction of the loan/ ACDB rate as decided by the management.
- 13 Interest income has been recognised on loans given to SPV's revenue generating projects in cases where there has been certain delays on implementation of the projects financed by such loans. According to the management, payment of interest is not contingent on such projects earning revenue. The management have further asserted that certain inherent delays which have occurred during implementation stage of infrastructure projects does not have any adverse effect on the recoverability of loans granted considering the operational model of KIIFB. Hence, these loans are considered good and expected to be recovered from SPVs which are all government owned or controlled agencies.

As per the said norms provisions for standard assets (for all revenue generating projects) at 0.4% on the outstanding loan balance and accrued interest amounting to Rs.3059.03 lakhs (Previous year to date Rs 2,450.32 lakhs) has been provided in the books of accounts as on September 30,2024. As per the said norms, an asset is recognised as Non-performing when there is arrears of principal or interest overdue for more than twelve months only. Once an asset is recognised as non-performing (Substandard or lower), entire unrealised interest is reversed, and income is accounted for on cash basis only.
- 10 As per revised IRACP norms, KIIFB has classified projects into four categories based on the viability of projects into High, Medium, Low and no commercial viability projects. As per the provisions of IRACP Norms Projects identified and categorised as Category 1 or 2 earlier but later recategorized as Category 3 projects, entire interest accrued in the past period shall be reversed. Hence for such projects IRACP Norms are not applicable from the effective date of classification till the such repayment agreement are executed or project identified as loan in books of accounts whichever is earlier. Provisioning of non performing assets is done as per norms as under:
- a) The assets are classified as follows.
- Standard Assets – up to 12 months overdue.
 - Substandard Assets -Beyond 12 months but less than 24 months overdue.
 - Doubtful Assets -Beyond 24 months overdue.
 - Loss Assets -fully written off subject to security value realisation
 - In case of revenue generating projects (RGP) for which repayment agreements are pending to be entered and disbursement is more than 40% -such RGP will be considered as substandard assets after 24 months from the date of 40% payment milestone has been reached or from the date of identification of the project as RGP in the books of accounts, whichever is later.
- b) Provisioning Norms

Type of Asset	Provision Required (%) -Expected Credit Loss

- 11 Prudential norms on Income recognition and asset classification and provisioning for long term infrastructure projects was adopted by KIIFB w.e.f 01-04-2023, vide circular resolution stated above and the same has been revised in the 46th General Body meeting of KIIFB held on 02-09-2023. KIIFB has classified projects into four categories based on the viability of projects. The categorisation of loans is as follows:

Category	Type of Category	No. of Projects	Loans (Rs in lakhs)	Interest Accrued (Rs in Lakhs)	Total (Rs in Lakhs)
I.	Projects which have high commercial viability	7	7,29,208.93	15,663.97	7,44,872.89
II.	Projects which have medium commercial viability	6	8,933.46	100.13	9,033.59
III.	Project which have low commercial viability	3	52,391.53	-	52,391.53
IV.	Projects which have no commercial viability	0	-	-	-
	Total	16	7,90,533.91	15,764.10	8,06,298.01

- 11.1 On the facts of the case, in respect of many of the revenue generating projects financed, there have been certain inherent delays during implementation which according to the management does not have adverse effect on the recovery of loans granted considering the operational model of KIIFB. Moreover, since the borrowers are government owned or controlled agencies, the loans are considered by the management as good and recoverable based on the confirmations from the borrowers including for land acquisition projects aggregating to Rs 5,06,001 lakhs (Previous year to date Rs 3,95,397 lakhs) (Total Loan outstanding as on September 30,2024).
- 11.2 Interest income for Category 1 projects are recognised at Average Cost of Domestic Borrowing (ACDB) of KIIFB reset every six months in a calendar year with monthly compounding (in some cases rate agreed at the time of sanction), Category 2 projects at discounted rate of interest as compared to category 1 and with respect to other two categories interest income is not recognised in the books of accounts.

- 12 Interest income recognised during the quarter and half year includes an amount of Rs 9,209.30 lakhs (Previous year to date Rs 2103.37 lakhs) on which 40% stage of disbursement has not been reached. The rate of interest chargeable is fixed only on reaching of 40% stage is reached as per the terms of tripartite agreement for the project. However, interest on such borrowing has been recognised based on rates agreed upon at the time of sanction of the loan/ ACDB rate as decided by the management.
- 13 Interest income has been recognised on loans given to SPV's revenue generating projects in cases where there has been certain delays on implementation of the projects financed by such loans. According to the management, payment of interest is not contingent on such projects earning revenue. The management have further asserted that certain inherent delays which have occurred during implementation stage of infrastructure projects does not have any adverse effect on the recoverability of loans granted considering the operational model of KIIFB. Hence, these loans are considered good and expected to be recovered from SPVs which are all government owned or controlled agencies.
- 14 Finance for Revenue Generating Projects treated as Loan receivable from SPV in the books are appraised by the Project Appraisal Division and implementation is closely monitored. The division comprise of high-level technical expert team under the Executive Director, who is a senior chartered engineer having vast experience in the field of construction and infrastructure. Each Project is reviewed by Project Manager as a Nodal Officer and supervised by Senior General Manager of the Division. The detailed project report is appraised by the division which places its detailed appraisal report before the EC/ Board of KIIFB. The detailed project report contains comments on review from technical, economic, financial, environment, social and institutional angle. The functions as above is governed by the norms stipulated in Standard Operating Procedures for project acceptance and SPV on boarding. In the opinion of management, the appraisal function done is sound and operating effectively.
- 15 Loan agreements are pending to be executed as on September 30,2024 with KSFDCL for two project loans having loan outstanding aggregating to Rs 1376.24 lakhs (Previous year to date Rs 600.20 lakhs) although more than 40 % stage of disbursement as per the terms of the tripartite agreement between KIIFB, the SPV and the concerned Government department had exceeded. Steps are in process for the execution of the loan agreement, which is pending requisite clearance from the concerned department of the Government of Kerala.

§Details in Annexure I

Analytical Approach

Ind-Ra continues to take a standalone view of KIIFB to arrive at the ratings. Ind-Ra classifies KIIFB as a dependent entity of the government of Kerala (GoKe) under its rating of Public Sector Entities criteria. The NCD rating draws comfort from the credit profile of the GoKe, which has extended an unconditional and irrevocable guarantee for the debt issuance. The bond rating is notched up based on the nature of pledged revenue, the strength of the structured payment mechanism, the availability of liquidity buffers and a likely adequate debt service coverage ratio (DSCR).

Detailed Rationale of the Rating Action

The rating is based on the continued strong legal and financial linkages between KIIFB and the GoKe, and Ind-Ra has notched them up based on the structured payment mechanism, which is working as it was hypothesised. Collections from the unrestricted pledged receivables, in the form of motor vehicle tax (MVT) and cess on petroleum receipts, allocated to KIIFB by the GoKe, are in line with Ind-Ra's expectations. Resultantly, neither DSRA has been used, nor the GoKe guarantee and DSRA guarantee have been invoked.

The notching is based on the legal and financial strengths of the transaction structure, which will be monitored and controlled by the debenture trustee (DT). The payment mechanism is backed by a bond servicing account (BSA), a pre-funded (initial DSRA and FD are to be created one day before the pay-in date) one-quarter DSRA and an FD sufficient to meet one-quarter of interest and principal obligations throughout the bond tenor. DSRA and FDs are lien in favour of the trustee and can be used only for debt servicing.

Ind-Ra has rated the new and proposed NCDs at the same level as the NCDs issued in FY24 worth INR26,499.2 million (existing bonds) on the basis that a similar structured payment mechanism will be followed for them except for the corpus fund. However, unlike in the earlier structure where a recourse to the corpus fund was made in instances such as DSRA impairment/cross default, the current structure takes a recourse to the GoKe to replenish the shortfall in DSRA as well as infusing funds to meet any shortfall in redeeming NCDs to the bondholders in case of a cross default. In the new structure, the GoKe takes the responsibility of replenishing the upfront FD and infusing funds to KIIFB for redeeming bondholders in case of a cross default, along with the responsibilities as per the earlier transaction structure. For all bonds, Ind-Ra takes comfort from the unconditional, irrevocable and continuing pre-default guarantee agreement executed between the GoKe and KIIFB, which will remain in force and effect until the NCDs are fully redeemed as per the deed of guarantee. Basis the pre-default guarantee and enforceability of the guarantee, Ind-Ra has assigned a CE suffix to the NCD rating, and the base rating of the transaction is linked to the credit profile of the GoKe.

List of Key Rating Drivers

Strengths

- Adequacy of pledged revenue
- DSRA and corpus fund
- Structured payment mechanism
- Transaction structural features
- Shortfall guarantee from GoKe
- GoKe's ownership and control of KIIFB

Weaknesses

- Potential revenue risk during an adverse economic situation
- Kerala's moderate economic performance
- State's high deficit and debt ratios

Detailed Description of Key Rating Drivers

Adequacy of Pledged Revenue: Ind-Ra expects the pledged revenue to comfortably meet the debt service obligations of the bonds throughout the tenor. Under the transaction structure, the MVT and petroleum cess received in KIIFB's collection account daily during April to December every year, will be deposited in KIIFB's BSA. The interest servicing and repayment of the bonds will be made from the build-up of such allocated cash flows, through regular transfers, in the bond servicing escrow account. Ind-Ra expects the revenue pledged to adequately provide a minimum cover of 1.2x of its debt service payments under the rating case scenario without using liquidity buffers in the medium term. NCDs are issued at a fixed rate of interest that mitigates the interest rate risk.

The transfer to BSA will be done in a manner such that the amount required for servicing NCDs gets fully built-up at least seven days prior to the quarterly servicing date. The MVT and cess allocation by the GoKe increased at a CAGR of 11% during FY20-FY24. The GoKe is required to ensure that the funds allocated to KIIFB grow at least 10% yoy. For any shortfall in cash flow during a financial year, the structure draws support from the statutory obligation of the government to cover the shortfall under the KIIF Act 2016.

DSRA and Corpus Fund: A one-quarter DSRA and an FD sufficient to meet one-quarter interest and principal obligations throughout the bond tenor has been created and will be created one day before the pay-in date for all the existing and new and proposed bonds, respectively. Also, the terms of the new and proposed bonds are similar, basis the draft term sheet and draft NCD documents, except for the availability of the corpus fund. The corpus fund was enhanced to INR33,270.19 million as of February 2024 from INR28,204.90 million to adhere to the condition that the bond issuance is kept at maximum of 80% of the corpus fund for existing issuances.

Structured Payment Mechanism: Ind-Ra expects the structured payment mechanism overseen by the trustees to protect the interest of bondholders.

Under the structured payment mechanism, from the first day of each quarterly servicing cycle, an amount equivalent to 2% of the aggregate quarterly servicing requirement of the outstanding bonds will be transferred to KIIFB's BSA, by way of an irrevocable standing instruction to the collection bank, until the required debt servicing amount is fully built up (pay-out date (T)) T-7 days before the due date of the payment. This transfer will continue each working day from April to December. For the period of 1 January to 31 March, KIIFB shall transfer an upfront amount on 1 January each year to KIIFB's BSA. The upfront amount will be equivalent to the amount required towards the aggregate daily transfer amounts for the said period.

DT would monitor the adequacy of the availability of funds in BSA, and in case of any inadequacy, would fund the same through liquidation of FD to the extent of such shortfall (T-7 days). In case of a shortfall in the BSA by T-5 day, DT would advise KIIFB to immediately bridge the shortfall, under intimation to the state government. If the shortfall persists on T-3 day, DT will transfer the requisite funds from DSRA to bridge the gap.

In case the funds available in DSRA are lower than the servicing requirement for the immediate next servicing date (T + 91), DT would serve a notice to KIIFB on T+ 1 day to fully replenish the DSRA impairment through the transfer of requisite amount from the corpus fund within T + 6 days for the existing bonds.

The structured payment mechanism is provided in detail for the issued and proposed NCDs in the Any Other Information section.

Transaction Structural Features: NCDs are secured by an exclusive charge on KIIFB's BSA, DSRA and FD in favour of DT. The GoKe has agreed to unconditionally and irrevocably guarantee the bonds raised by KIIFB; the guarantee is continuing in nature and through the tenor of the bonds for the principal and interest as per deed of guarantee for the existing bonds and for the new bonds. The corpus fund is unavailable for the proposed bonds and in the new structure, the GoKe takes the responsibility of replenishing the upfront FD/DSRA and infusing funds to KIIFB for redeeming the bondholders in case of a cross default in addition to the responsibilities as per the earlier transaction structure.

Separately, for the existing bonds, KIIFB has extended an unconditional and irrevocable undertaking that in the event the DSRA is utilised for meeting any debt servicing requirement for NCDs, it would arrange to release the requisite amount from the corpus fund to replenish DSRA. As per the undertaking, KIIFB would not impair this corpus fund in any way during the tenor of the NCDs and an amount of INR33,270.19 million (FYE24) would always be maintained as the corpus to fully reinstate DSRA. There would be no charge or lien on the corpus fund in favour of DT. However, DT would monitor the corpus fund. The corpus fund was enhanced in FY24 for a further fund raise through the NCDs route.

For the existing bonds, in case of a cross default/acceleration under agreements (subject to relevant cure periods) for any financial indebtedness of KIIFB or its subsidiaries, KIIFB would repay bondholders the entire amount of the outstanding bonds from the corpus fund within seven days from the date of occurrence of such cross-default/acceleration, failing which it shall constitute an event of default for the existing bonds. For the new and proposed bonds, the bondholders are provided a put option in case of cross default.

Shortfall Guarantee from GoKe: For the new and proposed bonds, the GoKe has extended a guarantee to fund DSRA and FD shortfall within the specified timeline. Unlike in the earlier structure where a recourse to the corpus fund was made in instances such as a DSRA impairment/cross default, the current structure takes a recourse to the GoKe to replenish the shortfall in DSRA, FD as well as infusing funds to meet any shortfall in redeeming NCDs to the bond holders in case of cross default.

The deed of guarantee specifically provides obligation on the part of the GoKe to fund the shortfall in DSRA and FD when called upon by DT, as per the stipulated timeline, in case of both new and proposed bonds.

The GoKe has extended a guarantee to fund only DSRA shortfall within the specified timeline for the existing bonds. In the event of the DSRA not getting fully reinstated by T+6 days, DT would notify the state government about its intention for an invocation of the guarantee if the shortfall were not fully bridged by T+27 days. The deed of guarantee specifically provides obligation on the part of the GoKe to fund the shortfall in DSRA when called upon by DT, as per the above

stipulated timeline. If the guaranteed obligations are not met by the GoKe within 30 days of the guaranteed invocation, it would be construed as an event of default, as per the terms of the transaction. Ind-Ra, in its analysis, has stressed the GoKe's credit profile by considering a sizeable portion of the guarantee to devolve. As per Ind-Ra's analysis, the guarantor, even in the stress scenario, is likely to meet all the guaranteed debt obligations.

GoKe's Ownership and Control of KIIFB: Ind-Ra has classified KIIFB as a dependent public sector entity under its Rating of Public Sector Entities criteria. The GoKe exercises significant control over KIIFB's policy objective and governs the composition and functioning of the board. Moreover, KIIFB is fully owned by the GoKe. The government has enacted the necessary legislation to enable the board to mobilise funds for the infrastructure development of Kerala. The GoKe also exercises significant control over the working of KIIFB through its board, which comprises senior state government officials along with independent members. As per Section 7 of Kerala Infrastructure Investment Fund (Amendment) Act, 2016 on budgetary allocation for repayment, the GoKe from time to time will provide in its annual budget the expenses incurred for the payment of annuity and other obligations of KIIFB in the form of MVT and petroleum cess. The GoKe may further make grants, loans and advances available to the fund as it may deem fit.

Potential Revenue Risk during Adverse Economic Situation: Ind-Ra does not rule out the possibility of a reduction of MVT due to an adverse economic situation, which may pan out during the bond tenor, and a reduction in petroleum cess due to a shift to electrical vehicles. However, the liquidity buffers by way of FD and DSRA and an unconditional, irrevocable and continuing guarantee by the GoKe towards DSRA replenishment for both the bonds and FD replenishment for new and proposed bonds under the transaction structure mitigate the risk from inadequate cash flows for debt payments. Ind-Ra believes the GoKe would ensure the budgetary allocation to KIIFB by way of MVT and cess is adequate to meet its debt servicing obligations and fund infrastructure development activity.

Kerala's Moderate Economic Performance: The share of agriculture and industry in the state economy is lower while that of services is higher than their respective shares in the national economy. The share of industry in Kerala was lower at 27.4% than 30.9% at the national level in FY24. The share of services was higher at 64.2% than the sector's share in the national economy of 54.6% in FY24. With a CAGR of 4.4%, Kerala's economy grew slower than the nation's gross value-added (GVA) growth rate of 5.8% during FY12-FY24. The state's contribution to the national economy was 3.8% in FY24 (FY12: 4.1%).

State's High Deficit and Debt Ratios: Kerala's revenue deficit as per the revised estimate (RE) of FY25 has been kept at 2.3%, higher than FY25 budget estimate (BE) of 2.1% of GSDP due to shortfalls in revenue receipts and lower-than-projected nominal GSDP growth. On the expenditure side, both revenue and capital expenditure were reduced by INR43.8 billion and INR11.8 billion, respectively, in FY25RE versus budgeted estimates. The expenditure cuts would contain the fiscal deficit at 3.5% of GSDP in FY25RE (FY25BE: 3.4%). For FY26, the state government has budgeted the revenue deficit at 1.9% and the fiscal deficit at 3.2% of GSDP.

The debt of the state has been budgeted at 33.8% of GSDP for FY26. This is marginally lower than the debt/GSDP of 34.2% in FY25RE and FY24 (actual). However, notwithstanding the moderation, the budgeted debt ratio for FY26 would be higher than the indicative debt estimate of 32.0% of GSDP for the state government by the 15th Finance Commission (15FC).

Liquidity

Adequate: Liquidity is supported by daily transfers of MVT and petroleum cess, which are escrowed for debt servicing. KIIFB had surplus liquidity of INR33,270 million by way of the corpus fund at FYE24 (audited). It has already received INR31,300 million during FY25 as the share of MVT and petroleum cess from the GoKe. It also received INR5,651.80 million as lump-sum allocation during 4QFY25 from the GoKe as additional contribution to the initial corpus fund. Also, KIIFB has received confirmation as per the GoKe budget with regards to allocation of MVT and cess in the form of INR36,250 million for FY26. Any shortfall in the said funds would be supported by the state government in the form of additional support as required

The total liquidity available with KIIFB, including cash and bank balances, DSRA deposits for existing debt, corpus fund and investments, was INR71,903.14 million at FYE24. The NCDs benefit from the liquidity buffers by way of a one-quarter pre-funded DSRA and an FD to the extent of interest obligations of one succeeding quarter and a principal redemption amount of one quarter upfront that would be maintained throughout the tenure of NCDs.

The company is required to maintain a DSRA equivalent of one-quarter interest and principal obligations throughout the tenor of NCDs. In accordance with the terms of the structure, a one-quarter DSRA and a one-quarter interest and principal obligations in the form of FDs worth INR3,046.62 million have been created cumulatively (for the existing and new bonds).

The corpus fund can be utilised for replenishing DSRA, put option on a critical rating downgrade notice, cross default mandatory redemption and early redemption only in case of the existing bonds (in the event KIIFB is required to replenish any shortfall in the DSRA for the third consecutive quarter). Ind-Ra expects the cash DSCR for FY25 to be comfortably above 1.3x of the debt service payments, based on the rating case scenario (FY24: 2.31x; FY23: 3.13x; including liquidity buffers such as cash and bank balances and investments). The total debt servicing obligation for FY25 and FY26 as per agency's projections are INR44,375.34 million and INR52,599.28 million, respectively, which can be comfortably covered by the existing cash reserves and the budgetary allocation to be received of MVT and petroleum cess from the GoKe.

Rating Sensitivities

Positive: Any improvement in the credit profile of the GoKe will be positive for the ratings.

Negative: The following developments could, individually or collectively, lead to a negative rating action:

- deterioration in the credit profile of the GoKe;
- the DSCR falling below 1.2x for two consecutive years during the bond tenor;
- continuous dipping into liquidity buffers for two consecutive quarters;
- the invocation of the GoKe's guarantee; and
- a failure or breach to comply with Securities and Exchange Board of India's listing requirements with regard to timely disclosure on a sustained basis.

3) ADEQUACY OF CE STRUCTURE

a. Shortfall Guarantee from GoKe: For the new and proposed bonds, the GoKe takes the responsibility of replenishing the upfront FD and infusing funds to KIIFB for redeeming bondholders in case of cross default in addition to the responsibilities as per the earlier transaction structure. The GoKe has extended a guarantee to fund DSRA and FD shortfall within the specified timeline. Unlike in the earlier structure where a recourse to the corpus fund was made in instances such as a DSRA impairment/ in case of cross default, the current structure takes a recourse to the GoKe to replenish the shortfall in DSRA, FD as well as infusing funds to meet any shortfall in redeeming NCDs to the bond holders in case of cross default. The deed of guarantee specifically provides obligation on the part of the GoKe to fund the shortfall in DSRA and FD when called upon by DT, as per the stipulated timeline.

The GoKe has extended a guarantee to fund only DSRA shortfall within the specified timeline for the existing bonds. In the event of DSRA not getting fully reinstated by T+6 days, DT would notify the state government about its intention for an invocation of the guarantee if the shortfall were not fully bridged by T+27 days. The deed of guarantee specifically provides obligation on the part of the GoKe to fund the shortfall in DSRA when called upon by DT, as per the above stipulated timeline. If the guarantee obligations are not met by the GoKe within 30 days of guarantee invocation, it would be construed as an event of default, as per terms of the transaction. Ind-Ra, in its analysis, has stressed the GoKe's credit profile by considering a sizeable portion of the guarantee to devolve. As per Ind-Ra's analysis, the guarantor, even in the stress scenario, is likely to meet all the guaranteed debt obligations.

b. State Government Guarantee: The guarantee is unconditional and irrevocable and is a continuing obligation. The guarantee will remain in force and effect until the NCDs are fully redeemed.

Ind-Ra, in its analysis, has stressed the GoKe's credit profile by considering a sizeable portion of the guarantee to devolve. As per Ind-Ra's analysis, the guarantor, even in the stress scenario, is likely to meet all the guaranteed debt obligations.

Press Release

March 19, 2025

KERALA INFRASTRUCTURE INVESTMENT FUND BOARD Rating Assigned and Reaffirmed

Product	Quantum (Rs. Cr)	Long Term Rating	Short Term Rating
BOND	1000.02	ACUITE AA CE Stable Assigned Provisional To Final	-
BOND	4149.95	ACUITE AA CE Stable Reaffirmed	-
BOND	500.03	Provisional ACUITE AA CE Stable Reaffirmed	-
Total Outstanding	5650.00	-	-
Total Withdrawn	0.00	-	-

Rating Rationale

Acuite has reaffirmed the long-term rating of '**ACUITE AA (CE)**' (read as **ACUITE double A (Credit Enhancement)**) to the Rs.4149.95 Cr. unsecured non- convertible bonds of Kerala Infrastructure Investment Fund Board (KIIFB). The outlook is '**Stable**'.

Acuite has converted the provisional rating on the Rs. 1000.02 Cr. unsecured non- convertible bonds of Kerala Infrastructure Investment Fund Board (KIIFB) to final and assigned the long term rating of '**ACUITE AA (CE)**' (read as **ACUITE double A (Credit Enhancement)**). The outlook is '**Stable**'.

Acuite has reaffirmed the long term rating of '**Provisional ACUITE AA (CE)**' (read as **Provisional ACUITE double A (Credit Enhancement)**) to the Rs. 500.03 Cr. unsecured non- convertible bonds of Kerala Infrastructure Investment Fund Board (KIIFB). The outlook is '**Stable**'.

The conversion from provisional rating to the final rating reflects the fulfilment of the appointment of a SEBI registered debenture trustee, execution of debenture trust deed, receipt of the final term sheet and confirmation from trustee regarding compliance with all the terms and conditions of term sheet.

The conversion of provisional rating of the remaining proposed bond of Rs. 500.03 Cr. to final rating is subject to:

- Appointment of a SEBI registered Debenture Trustee
- Execution of Debenture Trust Deed
- Receipt of the final term sheet and confirmation from trustee regarding the compliance with all the terms and condition of term sheet.

Rationale for the rating

The rating factors in the strategic importance of KIIFB to the Government of Kerala (GoKe), as it acts as the nodal agency for infrastructure development in the state of Kerala. The rating also considers the complete ownership of the GoKe and the strength of the board of KIIFB with the Chief Minister as the chairperson and also include the finance minister, chief secretary, and other civil servants and experts. The rating also takes in to consideration the constitution of the Fund Trustee Advisory Commission (FTAC) which monitors the financial stability and fund utilisation of KIIFB. GoKe has to make the necessary budgetary allocations to ensure KIIFB's revenue stream. Transfers from GoKe to KIIFB are as provided for in Section 7 of KIIF Act (as amended in 2016). As per Section 7, GOKe shall make budgetary allocations equivalent to share of MVT and entire quantum of fuel cess collected in the state in the previous year. As per the KIIF Act 2016, all the borrowings made by KIIFB are guaranteed by GoKe.

The final rating derives its strength from the structure, the escrow and payment mechanisms, DSRA and FD and also

the corpus fund of ~Rs.3327 Cr, all of which will be utilised only for the issue and hence assure enough liquidity till the complete redemption of the issue.

The rating initially assigned for the proposed bond issuance amounting to Rs. 3000.00 Cr. continues to factor in the strength from the structure, the escrow and payment mechanisms, DSRA and FD. Of this, bonds to the extent of Rs. 1500.03 Cr. had been placed previously and the rating had been converted to final on receipt of necessary documents. Further, bonds to the extent of Rs. 1000.02 Cr. have been placed now and hence, the rating has been converted to final on receipt of necessary documents. Unlike the previous bond issue, this does not have a support of Corpus fund as a part of its credit enhancement structure.

However, the credit enhancement is supported by GoKe's explicit guarantee to replenish both upfront FD and DSRA in case of shortfall/ impairment. Further as per Deed of Guarantee, GoKe is to infuse required funds to Issuer to redeem bondholders in case a cross-default/ critical rating downgrade event. If such redemption is not effected within the specified timelines, GoKe guarantee can be invoked by Debenture Trustee to redeem the bonds.

The rating is partially offset by the financial constraints and widening revenue and fiscal deficits of the Government of Kerala. Also, since KIIFB lends at the average cost of borrowings and also provides fund for the social development of the state in the form of grants, profitability will remain impacted.

About the company

Kerala Infrastructure Investment Fund Board (KIIFB) was established as the principal funding arm of Government of Kerala on 11.11.1999 by the Kerala Infrastructure Investment Fund Act 1999 (Act 4 of 2000). Through various functions provided in the act, KIIFB aims to channel funds for critical and large public infrastructure projects in Kerala. Comprehensive modifications to the Act have been enacted through the Kerala Infrastructure Investment (Amendment) Act, 2016. With the expanded scope and structure provided under the amended Act, KIIFB is now mobilising and channelling funds for facilitating planned, hassle-free, and sustainable development of both physical and social infrastructure, including major land acquisition needs that are integral to development and ensure all round wellbeing and prosperity, using financial instruments approved by the Securities & Exchange Board of India (SEBI) and the Reserve Bank of India (RBI).

KIIFB was established with the main objective of providing investment for critical and large infrastructure projects in Kerala. It acts as the primary agency of the state government to facilitate the development of both the physical and social infrastructure in Kerala and to assist the state government and its agencies in the development of infrastructure in Kerala. KIIFB acts as the main agency of the state government for scrutinising, approving, and funding major infrastructure projects. These infrastructure projects may be revenue generating or non-revenue generating.

Analytical Approach

Acuite has considered the standalone financial and operational figures of KIIFB and further notched it up for the support from Government of Kerala and the credit enhancement and structured payment mechanisms in place for the issue.

Key Rating Drivers

Strength

Support from the Government of Kerala

KIIFB is the nodal agency for infrastructure development for the Government of Kerala. KIIFB was established with the main objective of providing investment for critical and large infrastructure projects in Kerala. It acts as the primary agency of the state government to facilitate the development of both the physical and social infrastructure in Kerala and to assist the state government and its agencies in the development of infrastructure in Kerala. It is fully owned by GoKe. The GoKe further extends its support in the form of board representation with the Chief Minister as the chairperson, the Finance Minister, the chief secretary, key bureaucrats, and independent members. Further, all the borrowings made by KIIFB are guaranteed by GoKe as per the KIIF Act. GoKe has to make the necessary budgetary allocations to ensure KIIFB's revenue stream. Transfers from GOKE to KIIFB are as provided for in Section 7 of KIIF Act (as amended in 2016). As per Section 7, GOKE shall make budgetary allocations equivalent to the share of MVT and the entire quantum of fuel cess collected in the state in the previous year. These revenues come to KIIFB on a daily basis and fully by the month of December in every financial year, so that there are no liquidity crunches at the end of the financial year affecting the cashflows. The GoKe may also make any additional grants or loans to KIIFB so that KIIFB defrays its debt liabilities as per the KIIF Act.

Close monitoring by FTAC

The Fund Trustee and Advisory Commission (FTAC) monitors the financial stability and fund utilisation by KIIFB closely. It acts as the trustee to ensure that all investments of the fund serve the purpose and intent of the KIIF Act. The commission consists of eminent members like Shri. Vinod Rai, Chairman, Shri. R.A. Sankara Narayanan and Smt. Uma Shankar. FTAC issues a "Fidelity Certificate" every six months certifying that the application of funds and the investment of surplus funds are in conformity with the Act and KIIFB has adequate resources to meet debt obligations arising in the next 6 months.

Strength of the structure of the issue

The structure will be closely monitored by the DT and DSRA and FD mechanisms are also in place. The tenure of the bond is ten years, and the principal redemption will start in year four. The issuer would create a DSRA for an amount equivalent to the interest obligation of one succeeding quarter and the principal redemption amount of one quarter. The issuer would need to maintain the required DSRA amount on a rolling basis, and the initial DSRA amount so calculated would need to be deposited at least one day prior to the date of pay in. On the first day of every quarterly payment cycle, Issuer shall also maintain a fixed deposit in a scheduled public commercial bank, at least to the extent of the interest obligation on the immediately succeeding quarterly payout date & principal redemption amount of one quarter, and create, maintain, charge/lien on the same in favour of the Debenture Trustee at all times. The current structure provides for two quarters of interest and repayment obligations through the DSRA and FD mechanisms upfront.

The escrow mechanism is in place for the bond servicing account, where daily credit equivalent to 2% of the upcoming servicing requirement will happen, from the daily credit of petroleum and MVT Cess share from GoKe. For the last quarter of the financial year, the entire servicing requirement will be transferred upfront at the beginning of the quarter.

For the existing bond issue, the DT will check the availability of funds on the T-7th day and recover any shortfalls through the liquidation of the FD. If the shortfall still remains on the T-5th day, DT will ask the issuer to bridge the shortfall immediately. If the shortfall persists on the T-3rd day, the DT will transfer the funds from the DSRA to bridge the gap. The DSRA utilisation should be notified to the GoKe by the next day. If the impairment of DSRA is not fully replenished on the payout day, on T+1th day, DT will ask the issuer to replenish the DSRA from the corpus fund by T+ 6th day. There is the corpus fund amounting to Rs. 3327.01 Cr. which will only be used for the replenishment of DSRA or redemption of the issue during any windfall event. The corpus fund has to be maintained till the end of the issue period. If the DSRA is not cured on that day, the DT will inform the GoKe its intention to invoke the guarantee if the DSRA is not replenished in next 21 days. If the DSRA is not replenished by T+27th day, DT will invoke the state guarantee. The GoKe has the obligation to replenish the DSRA within the next 30 days. If the DSRA is not replenished on the T+58th day, it will be considered as an event of default.

The proposed and converted bonds amounting to Rs. 3000 Cr., does not have a support of Corpus fund as a part of its credit enhancement structure. However, the credit enhancement is supported by GoKe's explicit guarantee to replenish both upfront FD and DSRA in case of shortfall/ impairment. If the Guarantee obligations are not met by the State Government within 30 days of Guarantee invocation i.e. T+ 58 days, it would be construed as an Event of Default. Further as per Deed of Guarantee, GoKe is to infuse required funds to Issuer to redeem bondholders in case a cross-default/ critical rating downgrade event. If such redemption is not effected within the specified timelines, GoKe guarantee can be invoked by DT to redeem the bonds. Accordingly for the cross-default/ critical rating downgrade if the Guarantee obligations are not met by the State Government within 30 days of Guarantee invocation i.e. t + 85 days, it would be construed as an Event of Default.

Weakness

State of the financial health of Government of Kerala

Since the operations of KIIFB are supported by the GoKe and the revenue stream of KIIFB also derives from the GoKe, the high revenue and fiscal deficits of Government of Kerala can disrupt the operations of KIIFB. During 2024 (CAG Provisional), GoKe revenue deficit stood at 1.55 % of the GSDP with the fiscal deficit at 2.92 % of the GSDP. The debt of the GoKe stood at 33.76% of the GSDP. Going forward, the ability of the GoKe to improve its financial stability and the central government's intervention in state borrowing limits will be key monitorables.

Assessment of Adequacy of Credit Enhancement under various scenarios including stress scenarios (applicable for ratings factoring specified support considerations with or without the "CE" suffix)

Acuite believes that the DSRA structure, FD and escrow mechanism in the bond servicing account along with the corpus fund and guarantee by the GoKe will help in maintaining ample liquidity and mitigating any risk in repayment of the issue.

ESG Factors Relevant for Rating

KIIFB created its ESG policy in 2021. The main objective of this policy is to address any of the ESG risks and impacts in the projects and make them ESG sustainable for KIIFB and its stakeholders and development partners. KIIFB is committed to adopting global standards and principles of responsible investing, and integrating ESG criteria into its investment approach and decision-making processes. Further, KIIFB also encourages Special Purpose Vehicles (SPVs) or Project Implementation Agencies (PIAs) to manage risks responsibly by working beyond regulatory requirements and moving towards enhanced social value creation. As part of this, KIIFB has adopted a nine step mechanism that includes due diligence, monitoring, and grievance redressal mechanisms to ensure proper ESG standards are maintained in each of its projects and the policy is updated as per the latest trends.

KIIFB has a strong internal governance system in place. KIIFB is headed by the Chief Executive Officer, who also acts as the fund manager of KIIFB. The Board is the highest decision-making body of KIIFB and comprises the Chief Minister, the Finance Minister, the Chief Executive Officer, key bureaucrats, and independent members. The board consists of 13 members, out of whom 6 are independent members.

Note on complexity levels of the rated instrument

In order to inform the investors about complexity of instruments, Acuite has categorized such instruments in three levels: Simple, Complex and Highly Complex. Acuite's categorisation of the instruments across the three categories is based on factors like variability of the returns to the investors, uncertainty in cash flow patterns, number of counterparties and general understanding of the instrument by the market. It has to be understood that complexity is different from credit risk and even an instrument categorized as 'Simple' can carry high levels of risk. For more details, please refer Rating Criteria "Complexity Level Of Financial Instruments" on www.acuite.in.

KERALA INFRASTRUCTURE INVESTMENT FUND BOARD (KIIFB)

Circular Resolution No.6/2024

Dated 12.07.2024

Issuance of Domestic Bonds.

The 48th General Body of KIIFB authorized the Chief Executive Officer to raise up to Rs 10,000 Cr for the period till March 2025 for project payments and for ensuring a sufficient liquidity buffer.

It is essential for KIIFB to have diversified borrowing mix (of term loans from banks, financial institutions and domestic bonds), so that KIIFB is able to avail funding when required. Accordingly, it is proposed to establish a Domestic Bond program for availing financing of Rs 3000 Cr (in one or more tranches) through the debt capital markets in FY 2024-25 with a robust transaction structure which could ensure a competitive pricing for the following end-use:

- (a) providing financing to infrastructure projects in the State of Kerala as approved by KIIFB's board of members including but not limited to for acquisition of immovable assets for setting up such infrastructure projects;
- (b) repayment of any financial indebtedness availed by KIIFB; and
- (c) any other objectives of KIIFB pursuant to the KIIF Act, 1999 (as amended).

KIIFB with the current transaction structure (which includes an undertaking with regard to Corpus Fund) has successfully raised funds amounting to INR 2649.92 Cr through the issuance of domestic bonds and accordingly has fully exhausted the limit in terms of funds that could be availed by issuing bonds on the current transaction structure (the upper limit was 80% of Corpus Fund balance maintained in Treasury

Deposit Account. Current Balance is Rs 3327.02 Cr).

KIIFB's existing structure (which is rated " AA " by both India Ratings & Research Pvt Ltd and Acuite Ratings Pvt Ltd) was devised with assistance from transaction advisors, i.e., AK Capital and Trust investment advisors, which are among the Top 10 SEBI registered Merchant Banks as per League Table (Prime Database) for FY 2022-23.

Accordingly, to revise the transaction structure for the Domestic Bond Program for FY 2024-25 and for availing other advisory services in this regard, KIIFB management had appointed both AK Capital and Trust investment advisors as the transaction advisors on a pro bono basis.

On the basis of discussions with Transaction Advisors, a draft term sheet indicating the broad terms and the transaction structure of the proposed generic domestic bond is enclosed as Annexure- A for Board's kind perusal and approval.

Once the proposal is approved, KIIFB management shall

- appoint the rating agencies and initiate the rating exercise for the domestic bond program
- commence other documentation work such as preparation of information memorandum, other bond documents et al.
- initiate the hiring of relevant third parties/ intermediaries to the issue including Legal Counsel, Account Bank, RTA, Trustee, et al.

Once the provisional rating is in place, KIIFB management shall initiate the appointment of arrangers to the issue through a competitive process as was done during the earlier bond issuances.

It is proposed to engage both India Ratings & Research and Acuite Ratings & Research as rating agencies, State Bank of India as the account bank, Trilegal as the

Legal Counsel, M/S Catalyst Trusteeship Ltd as the Trustee and M/S Cameo Corporate Services Ltd as the Registrar for the proposed Domestic Bond Program. It may kindly be noted that except State Bank of India (new account bank proposed in place of Bank of Baroda), all other third parties indicated above were associated with KIIFB for the domestic bonds issued earlier.

It may be noted that the indicative pricing of the Generic Bond will be known closer to the issuance date based on inputs from the market participants and conditions prevailing in the financial markets. Further, to ensure price discovery of the coupon and arrangers fee, KIIFB shall adopt the same competitive process as was followed in case of the recent Domestic Bond Issuance.
